- The background history of the UNCRC was very useful to confirm how my role fits into a wider context
- Provided more of an awareness
- The addition of Human Rights and background of UNCRC was helpful
- More practical input on how to raise awareness of rights within schools would be worth exploring
- Good to go back to basics of the UNCRC and think about how this can be developed within our organisation – through parents and staff
- More input on how to educate children and young people about their rights but also about responsibilities, eg right to play but play safely would be good
- Great to have the context, history and background explained by an expert
